

"The way we are facing has everything to do with our destination," we are told. In other words, the man who has given up and facing backward has no chance to go ahead.

FORMER COUNTY BOY SEEKS NOW TO DENY PLEAS

After Confessing Part in Lynching of Negro, Polk Is Wavering.

IN MENTAL STRAIN

Friends Try To Save Lad From Life Sentence For Murder.

(By the Associated Press)

OKLAHOMA CITY, Jan. 27.—A hearing probably will be held tomorrow in district court on a motion filed late yesterday asking that the judgment of the court be set aside and the prisoner be permitted to submit a plea of not guilty in the case of Charles Polk, 19, who was one of the six men sentenced to life imprisonment in the state penitentiary early this week after entering pleas of guilty to charges of murder in connection with the lynching here the night of January 14 of Jake Brooks, negro packing house worker.

Seven affidavits, made by members of Polk's family and several friends, are attached to the motion and testify as to the mental condition of Polk when he was arraigned Tuesday in district court to plead. Charges that the authorities promised him a parole if he told of his part in the lynching were made by Polk's attorney who filed the motion.

Must Have Two Days.

The petition set forth that under the state statute, two days must elapse before sentence is pronounced after the defendant has made his plea, and alleges that the court did not follow this ruling in accepting the plea and pronouncing sentence simultaneously.

Two other affidavits, in connection with the affair are scheduled to have preliminary trials sometime today, having announced their intention to fight the charge of murder against them.

Polk formerly lived at Francis, in Pontotoc county. He came to Oklahoma City in 1917, and his father, Alex Polk, settled on a farm near here. The elder Polk was one of the first men arrested in connection with the alleged Green Corn Rebellion in Pontotoc county during the early days of America's participation in the World War.

Two Trials Postponed.

OKLAHOMA CITY, Jan. 27.—The examining trial of John V. Harris and Robert McAlester, charged with murder in connection with the lynching of a non-union negro packing house worker here two weeks ago, was again postponed today due to the illness of the examining magistrate. It is now thought the case will be heard tomorrow.

Detroit Club Plans Farmer Conference To Boost Industry

(By the Associated Press)

DETROIT, Jan. 26.—A campaign to bring about general improvement in agriculture in the region surrounding Detroit, that eventually is expected to exert a great influence upon farming everywhere in the state, has been undertaken by the Detroit City-Farmers club, believed here to be the only organization of its kind in the country. The club is made up of city business and professional men who operate farms either for profit or as a hobby.

The organization, of which J. F. O'Hara, a broker, is president, numbers among its members Judge Arthur J. Tuttle of United States District court, John Endicott, owner of a department store, Oscar Webber, a Detroit retailer, George Dickson, head of the Michigan State Fair association, and Circuit Judge Ira W. Jayne.

The club, that is affiliated with the Detroit Board of Commerce, is carrying on experimental work on the farms of members. These experiments include cattle breeding, departures in horticultural development, and similar efforts. An attempt is being made to show the benefits of scientific agriculture.

The farms owned by members of the club are among the most beautiful to be found in the Detroit district.

Defying Cold, Six Kiddies Mush Two Weeks After Aid

(By the Associated Press)

FORT WILLIAMS, Ont., Jan. 27.—Six little Indian children who left the frozen bodies of their father and mother in the northern trapping wilderness, today reached Watcomb on the Canadian government railroad after a fortnight of traveling over snow covered ground. The five younger children, ranging upwards from a baby of a few months, were brought here by a 15 year old brother and a neighbor.

Their father and mother both died of influenza in the family woodland hut on Friday, January 13. That day the father called the oldest boy to his bedside, told him the end was near, gave him \$1,200, the fruits of his trapping, and bade him care for his brothers and sisters. There was little food in the house.

Unable to bury the bodies, he left them in the shack with five other children while he set out on snow shoes to reach the nearest neighbor, 30 miles away. Two days later he returned with John Hignosh, the neighbor. The five hungry tots were chewing moose flesh. They had burned most of the furniture to keep from freezing. The bodies of their parents were frozen stiff.

BOUT CALLED OFF BY SHAWNEE MAN

Battling Fox Charges He Is Fouled After Gong In Legion Scrap.

After demanding the decision on a foul, or a draw, "Battling" Fox, Shawnee champion, stalked from the ring at the end of the third round at American Legion hall last night. He charged that Arch Cooper, Ada, his opponent, had fouled him after the gong by refusing to quit fighting.

More than 350 sport lovers had packed the hall and an overflow of ring fans jostled each other in the corridors outside trying to gain admission to the bout which was the first of a series of similar events to be staged by Norman Howard post of the Legion. In spite of the fact that five rounds of what promised to be a thrilling scrap were cut off by the squabble, the crowd was not disappointed in the show.

In the first round, Cooper fought over the head of his Shawnee opponent. They clinched repeatedly when Fox ducked the local man's long swings by rushing into a grapple. This round was a draw.

Cooper opened with new tactics early in the second round. A right uppercut to the jaw surprised the visitor when he anticipated a repetition of Cooper's high swing to the head. Again in this round clinches were frequent and Referee Reed was called upon repeatedly to break wrestling holds. Fox was frankly surprised at Cooper's left which time again found him uncovered. Cooper took considerable punishment in close fighting, the visitor raining body punches and kidney jabs. The bell found both men parrying for an advantage.

Visitor Fighting Close. As the third round opened, Fox increased his rushes to avoid punishment from Cooper's long swings and uppercuts. He displayed good footwork and several times rushed Cooper into the ropes, pummeling him while under cover. Cooper missed a heavy right cut at Fox's head. The Shawnee champ clung to his body jabs which had little effect on his opponent. In a whirl of offensive late in the third round, Cooper crowded Fox into a corner of the ring and met his counter-rush with a left hook to the jaw. Fox slumped to his knees in the ring. Cooper followed up the advantage and in the upshot that followed, the gong rang persistently. Fox was carried to his corner.

When the gong, opening the fourth round, sounded, Fox's manager and second failed to retire from the ring.

Several interesting preliminaries preceded the Cooper-Fox bout. Five husky negroes fought a battle royal. Sailor Adair and Johnnie Baker fought four rounds to a draw, and Claude Sparks, Ada, took on Hagiebeck, Shawnee, for five rounds of punishment to the local man.

\$25,000 FIRE BROUGHT UNDER HAND AT DURANT

(By the Associated Press)

DURANT, Jan. 27.—Fire which threatened an entire business block here early today was finally brought under control after having destroyed a restaurant and barbershop and damaged the office of the White Investment company. The loss is estimated at \$25,000.

The origin of the blaze, which started in the barber shop, has not been determined. The buildings destroyed were the Coffee House Cafe and the Taylor Barber shop.

SMALLPOX IS ON WANE IS REPORT

Cases Increase But Danger Past, Lewis Declares at Oklahoma City.

End of the smallpox epidemic in Oklahoma is in sight, Dr. A. R. Lewis, state health commissioner, said Thursday. He makes this statement, he says in spite of the fact that the number of cases reported to the health department daily and weekly still is on a rapid increase.

"The most certain indication that we soon shall be free from the malady," the health commissioner said, "is in the fact that the disease is becoming less and less virulent in all parts of the state. This condition always presages the end of every epidemic."

Decline Always Rapid, He Says. "After starting on the decline in virulence, a contagious or infectious disease always disappears in a short time. At the same time as the decline starts, the number of cases always becomes vastly greater."

"So it has been with the smallpox in Oklahoma. Numbers of cases have broken out in communities far removed from the affected parts within the last week or more. Sometimes it has been absolutely impossible for us to account for the fresh outbreaks of this kind."

Pottawatomie One of Worst. Pottawatomie county appears to be one of the most seriously infected parts of the state at present, according to Doctor Lewis. He has just received a request from Dr. J. T. Martin, county health officer of Oklahoma county, that every person coming to this county from Pottawatomie county be required to have a vaccination certificate.

PotEAU, which until a few days ago was in the grip of a serious outbreak of smallpox, is recovering rapidly now, Doctor Lewis said. The disease is almost under control there now.

Disease Subsides at Ardmore.

No new cases have been reported in Ardmore within the week, according to a report received by the board of health from there. Other formerly widely infected communities also are almost free from the malady.

Vaccinations over the state have been administered in such great numbers that the board of health has found it difficult to keep the various county and city health officials supplied, and unable to obtain needed orders rapidly from medical supply houses. Nearly 3,000 points daily are shipped to all parts of Oklahoma, Doctor Lewis said. A shipment of 5,000 points received Wednesday was practically exhausted Thursday evening.

GAS CONSUMERS ARE PAYING NOW CHRISTMAS BILL

Yuletide joys, while past and forgotten, are not altogether paid for, gas users of Ada will learn when they receive this month's card upon which will be charges for much of the fuel used in Christmas cooking.

Meters, according to officials of the local gas company, were last read on December 20, in order to get through before the holidays. The reading this month was on the twenty-third which leaves nine days in December to come on this month's bill, it is explained. Herein lies the explanation, according to the company, for the fact that this month's bill will be bigger than the one for December in almost every case.

Furnishing the city with heat is almost as problematic a job as that held by the weather man. At the company's office, a daily record of the temperature is kept. Also, they must watch closely the weather forecast and go hand in hand with the temperature prophet in keeping an eye on the approaching cold snaps. The average daily temperature for January, their charts indicate, is 11 degrees more than for December. This also accounts for a greater consumption of gas this month, it is pointed out.

Make Many Changes. Continually, changes are being made in meter locations in the city. This month there were 434 changes where meters were locked off, unlocked, or taken out. This, it is estimated, required 651 miles of travel.

A meter tester, which is kept in the company's office, proves invaluable, it is said, in settling disputes over bills and in certifying to the correctness and efficiency of meters. When a meter stops functioning entirely, an estimate is made on the amount of gas consumed, based on the periods when the meter was registering. Leaks are often found responsible for unreasonable bills.

DETROIT KIDNAPPED AND BEER IS STOLEN

(By the Associated Press)

CHICAGO, Jan. 26.—Seven bandits with three large automobile trucks early today kidnapped a Michigan Central detective, stole 100 barrels of beer and escaped despite fusillade of shots fired by two policemen. The detective was later released unharmed.

MATRIMONY CLAIMING BIGGER PART OF MEN

WASHINGTON, Jan. 27.—

The proportion of married men to the total male population of the country, 15 years of age and over, increased from 55.8 to 59.2 in the ten years preceding the 1920 census, according to a compilation of marital statistics made public today by the census bureau.

The bureau believes, however, that this was probably more of an indication of a change in the age composition of the population—an increase in the percentage of males between 15 and 25 years of age, due to increased immigration—than a growing tendency for matrimony.

U. S. COURT FOR COAL DISPUTES?

Head of Labor Committee Asks Federal Tribunal To Handle Fields.

(By the Associated Press)

WASHINGTON, Jan. 27.—A government tribunal for regulation of coal industry under a statutory code of industrial law enforcement only in the power of public opinion, was recommended in a report presented to the senate today by Chairman Kenyon of the labor committee which recently investigated disorders in the West Virginia-Kentucky coal fields.

The report held that both the coal operators and miners were responsible for the recent fatal conflicts and property destruction in West Virginia and said mutual concessions by the coal operators and United Mine Workers would have to be made to end the conflict.

"The issue is perfectly plain," said Senator Kenyon's report. "The operators in this particular section of West Virginia declare they will not employ men belonging to the union, and furthermore that they have the right and will exercise it if they desire, to discharge a man if he belongs to the union. On the other hand, the United Mine Workers are determined to unionize these fields, which are practically the only large and eminent coal fields in the country not unionized."

The proposal for a federal coal tribunal and code of laws applying to operators and miners alike was his personal suggestion, Senator Kenyon said. Other members of the investigating board did not sign the report and are at liberty to submit individual reports.

Senator Kenyon said his plan offered a solution for the coal industry's problems "which bids fair to confront us more acutely before another season has passed."

The Kansas industrial court idea, involving compulsory arbitration, he said, had been proven futile. The Kansas court, he said, "cannot be a success because it has no underlying code of rules or principles."

Not a Policeman, But A Real Bull Was Her Trouble

(By the Associated Press)

NEW YORK, Jan. 27.—Dis-may and other emotions swayed the sergeant on duty at police headquarters here yesterday when he picked up the telephone and heard a hysterical feminine voice announce: "I've been attacked by a bull!"

"What 'ya mean, bull?" he asked, "a cop?"

"No, no," the voice replied, "a kind of cow with horns."

Whereupon a patrolman, proficient in the art of the lariat, was sent to the scene.

The disturbing bovine, escaped from a herd at a station board landing, was corralled.

WOMAN AND CHILD ARE HELD FOR KIDNAPPING

CHICAGO, O., Jan. 27.—Police announced today they were holding Miss Frances MacLane of Chicago, and George Robbins, 3 years old, a grandson of George J. Robbins of Chicago. The police said they took the woman and child from an overland train here yesterday at the request of Chicago authorities who declared the young woman was charged with kidnapping.

Extradition Refused. CHICAGO, Jan. 27.—Mrs. Mary Robbins today was refused extradition papers for the return to Chicago of Miss Frances MacLane, held at Odgon, Ohio, charged with the kidnapping of George B. Robbins III, aged 3 years. The state attorney declined to issue the papers because the child has been given into the custody of the father by the court, and was being taken to Los Angeles to join him.

ATHLETIC UNION GIVEN APPROVAL

Business Men Favor Plan For Sport Association; Committee Named.

Several business and professional men met at the Chamber of Commerce rooms on East Main street Thursday evening to discuss the proposed Ada Athletic Association. Prof. A. L. Fontem and Ralph Wane explained the plan that has been worked out by representatives of the schools and Mr. Wane. This plan proposes to hire a man to boost amateur athletics from all angles. There is to be a council of nine men, representing the churches, the schools, the chamber of commerce, the Lions club, the national guard units and the American Legion. Athletic teams in baseball, tennis, basketball and football will be encouraged.

Funds Present Problem.

Every one present agreed that something of the kind is badly needed. The only problem is getting necessary funds to carry on the work. A committee consisting of M. Z. Thompson, Sam Scheinberg, Ralph Wane, Rev. R. A. Hatch, Roy Givens, Rev. H. M. Woods, William Newton, Miles C. Grigsby and Lee Smith was appointed to work out ways of raising the money and report back to the interested men. The committee will meet Monday evening and will report to the open meeting on the Thursday evening following.

Dr. A. Linscheid spoke in favor of the plan, as did several others. It was pointed out that the Boy Scout movement takes care of the boys from about twelve to fifteen years of age. Now the athletic movement is designed to take care of those above the Boy Scout age.

The meeting was enthusiastic and those interested directly in the movement expect to see it go over.

GAMES FOR WEEK ARE POSTPONED; SCHEDULE LATE

All basketball games for this week have been postponed upon an order of the city health officer, Coach Thompson of the Teachers college stated today. The game for tonight with the Oklahoma City college here has been postponed and will not be played until some time in February. No city league games will be played tonight.

t of the city league games last Monday night and tonight probably will extend the city February. It is the opinion of some that the games for next Monday night will be postponed and on account of players having sore arms from smallpox vaccination, games for Friday also probably will be delayed. The city league will, in this case, end February 18 instead of February 6.

Coaches of the high school and Teachers college stated today that the game scheduled would be played this season, although not at the dates originally set. In the city league Battery F has four games to play, the Teachers College has two games to play, the Ada News has two, the Cement plant has two, the Business college three and the high school has four. A tournament will be arranged between the six teams at the close of the league.

FRENCH SOLDIERS LOSE MEMORY AND IDENTITY

(By the Associated Press)

PARIS, Jan. 27.—Paris has six "living unknown Poilus." The men, their memories completely blank as the result of horrors undergone during the war, are being cared for by the government, which is seeking to establish their identity.

They have been visited by thousands of persons, but none recognized them, and the minister of interior has decided to send their photographs to the metropolitan and provincial press in the hope that their relatives can be found.

Wasting of Forest Lands Is Condemned At Aggie Meeting

(By the Associated Press)

WASHINGTON, Jan. 27.—Recommendations for the appointment of a federal commission to formulate a national land policy including all questions of reclamation and irrigation, were adopted today by the national agricultural conference.

The conference also went on record as opposing the opening of any more land for farming purposes until normal conditions are restored. Immediate stoppage of devastation of forest lands was recommended in the report of the committee on forestry policies, and approved by the conference. The report also recommended efficient methods in fire prevention, forest reserves and an increase in the national forestry reserve.

Defense Rests in Fatty Case. (By the Associated Press)

SAN FRANCISCO, Jan. 27.—The defense rested today in the second trial of a manslaughter charge against Fatty Arbuckle.

Many Unemployed Seek Charity For Meals and a Bed

Cold nights recently have seen many unemployed men, including a few transients, to the charities office here, shivering and in search of a place to sleep, according to Mrs. Orville Snead, secretary.

And for the first time, the Red Cross and United Charities have departed from their usual custom of refusing to meals for transients and in man cases spread the protecting wing of mercy around them. Appeals for meals and a night's lodging have increased alarmingly within the last few weeks, Mrs. Snead declared.

Persons who have any employment for men or women, black or white, are requested to call Mrs. Snead and list it. Suffering among the negro population has assumed serious proportions recently, it is understood. Unemployed men who are furnished meals and lodging by the charities appear unusually appreciative of late, Mrs. Snead said.

A few cases of actual hunger in whole families have been reported here but all of such homes have been given temporary relief. The charities received today a check for \$50 from the American Yeomen for local relief work.

POISON BOOZE IS FATAL TO INDIAN

Connerville Man Is Found Dead in Room of Ada Hotel Early Today.

Grayson Sealy, an Indian, of Connerville, was found dead in his room in the Stockton Hotel this morning by the proprietor. A coroner's jury, presided over by Justice of the Peace W. H. Fisher, acting coroner, and J. W. Balthrop, foreman, pronounced his death the result of drinking liquor containing poison. Hotel people stated that late yesterday they escorted Sealy to his room in a drunken condition.

When found he was lying face down on his bed, fully dressed. He was wearing a raincoat over his other clothes, which he had not removed. Those who examined his body stated that about \$60 in cash was found on his body. Efforts were being made today to locate his relatives and the body is being held at the Cummins Undertaking parlors until word is received from relatives. Letters found in his pocket are said to have borne a Connerville postmark.

This is the first death here in several months from liquor containing poison. As yet no information has been received as to the source of the liquor, or who is selling liquor containing poison. When found, the body was cold and stiff, and doctors said the man had been dead for several hours.

UNION LABOR IS WINNER IN VOTE ON ADAMSON LAW

WASHINGTON, Jan. 27.—Union labor won a victory in the national agricultural conference today when that body by a vote of 83 to 64 struck out of a committee report a recommendation for the repeal of the Adamson eight hour law.

This action was taken after a bitter debate in which Samuel Gompers, president of the American Federation of Labor, denounced a resolution introduced by W. H. Stackhouse, president of the National implement and vehicle association, calling for a reduction of mine and railroad workers wages, and also the committee report repealing the Adamson law.

The sentiment of the conference seemed to be that matters involving wages paid to union labor had better be left to congress. Several of the delegates joined with Mr. Gompers in denouncing the proposal which was termed an effort to drive a wedge between labor and the farmers.

NIGHT CLERK'S ROBBED OF \$180,000 IN NOTES

HATTISBURG, Miss., Jan. 27.—The Girault Company of this city was robbed of \$180,000 in bonds, paper and notes this morning, according to the police. Two men are said to have held up the night clerk.

Grady Bishop, the night clerk, said he was confronted by two masked white men with revolvers. They forced him to open the cash register.

Locking him in a closet, Bishop said the robbers then forced the safe. Company officials said that while none of the paper was negotiable, part of it was not listed and might be hard to replace.

The police believe the robbery was carried out by someone familiar with the company offices.

5 BANDITS KILL BANKER AND RUN AMID FUSILLADE

Daring Men Lock Several In Vault and Escape Ahead of Posse.

AUTOMOBILE IS LEFT

Crowd Gathers To Witness Thrilling Battle of Officers and Men.

PITTSBURGH, Penn., Jan. 27.—Five bandits today robbed the First National Bank of Crafton, a suburb institution, of \$11,000 in money and \$20,000 in Liberty bonds, after killing Harold Moss, assistant cashier.

The men escaped in an automobile, but were intercepted on the north side by detectives on their way to the scene of the robbery. After a spectacular gun battle, the men abandoned their car and sought shelter in a house not far from the Pennsylvania railroad yards. The house was surrounded, but the bandits escaped. Two men and a woman later were detained for examination.

PITTSBURGH, Penn., Jan. 27.—Five men walked into the First National Bank of Crafton, a suburb, this morning, and after killing Harold Moss, assistant cashier, forced five clerks and a woman customer into a vault. They robbed the bank of approximately \$30,000 in cash and negotiable securities and escaped in an automobile towards the open country.

Within an hour after the robbery a party of city detectives on their way to the bank met an automobile filled with men on the north side. The order to stop was answered by a fusillade of shots and the car kept going. The detectives lost a little time in turning, but soon overtook the bandits, who abandoned their car and scattered. They dashed into buildings in the vicinity of Pennsylvania and Erwin Avenues with the detectives close on their heels.

While some of the officers followed the fleeing robbers, who were answering shot for shot, others took charge of the car and found what they believe to be all the loot from the bank.

Meantime the bandits had run through the building facing the street and out of the back doors into by-ways and alleys. They were so closely followed by police, now reinforced by all the available reserves on the north side and motorcycle men from the down town district, that they took refuge in a house on Pennsylvania avenue.

Stationing themselves at advantageously located windows they opened fire on the police, who prepared to rush the building.

A great crowd, attracted by the firing, gathered in the vicinity and watched the battle.

After an exchange of shots, firing from the house ceased. The suspicion grew that the bandits had escaped through yards of the Pennsylvania railroad nearby. Police were stationed around them.

WORK PROGRAMS GO OUT TO C. C. MEMBERS SOON

Compiled and printed lists, showing a summary of suggestions made by members of the Chamber of Commerce in group meetings last Friday night and on suggestion sheets sent in at that time and in the mails since, will be mailed out to all members within a few days, officers of the C. of C. said this morning.

Straggling suggestions were coming into the Chamber this morning and were being transferred to cards which are being filed under the names of persons who make the suggestions. Each suggestion is placed on an individual card and all of one kind, regardless of their authors, are filed together. These will be used later when committees are appointed to carry out that phase of the program of work.

Today's most important development will be a meeting of new directors at the C. of C. rooms at 7:30 p. m. It is expected that they will elect their officers including a president, two vice presidents, a treasurer and a secretary. Later, active steps will be taken to execute the program of work.

OKLAHOMA WEATHER.

Tonight and Saturday partly cloudy, rising temperature.

BIBLE THOUGHT FOR TODAY

A LOVE FEAST:—Better is a diner of herbs where love is, than a stalled ox and hatred therewith.—Proverbs 15:17.

INJUSTICE OF THE GUARANTY CLAUSE.

In a speech presenting his amendment to the railroad funding bill, Senator Kendrick, of Wyoming, exposed the iniquity of the guaranty clause in the Esch-Cummings act in very plain words. Under this amendment, the Interstate Commerce commission would be relieved from the arbitrary requirement that, in fixing rates, they should fix such as would enable the roads to earn a fixed income of from five and one-half to six percent. It would be made possible for the commission, in considering the transportation needs of the country, to have regard not only for the interests of the carriers, but also to pay heed to the needs of shippers and the rights of the general public.

"As the law stands today," said the Wyoming Senator "with this guaranty clause in effect, the commission has no choice but to levy a toll upon all industry sufficient to pay the railroads a fixed profit, though every other industry in the land may operate at a loss." He went on to give figures that strikingly bear out his contention that the mandatory provisions of this section of the act resulted in disproportionately high freight rates, and so have contributed one of the greatest factors "to the desperate economic conditions in which the country now finds itself."

And he went on to show, the results of one such advance meant nothing less than financial ruin to producers in many sections of the West, in some places suspending the very processes of production. Scarcely a day goes by in which the attention of the Senate is not called to whole sections of the country in which the farmers are unable to move their products because the prices offered are not sufficient to pay the actual freight charges involved in reaching market. While the price of corn in Chicago in August last was only nine percent above the 1913 level, freight rates were 84 percent higher. Barley was 13 percent higher, but freight rates 80 percent.

Perhaps the most vividly convincing illustration of the effects of the freight increases was the Senator's statement that "it costs today \$831 to ship a carload of wool from Boise, Idaho, to Boston, as against \$75 in 1917," making it actually cheaper for the Idaho wool producer to ship to Portland, Oregon, and there rebill to Boston. This to get the low transcontinental rates which prevail between Pacific and Atlantic ports in order to meet water competition. This means hundreds of miles of extra and unnecessary transportation. "Uneconomical, if not absurd," is Senator Kendrick's pat characterization of a law compelling waste.—Exchange.

UNRESTRAINED TENDENCIES.

The tendency of the man with poor reasoning facilities is to take by force that which he cannot get by reason and common sense. This tendency has meant the ruin of many men, who might otherwise have been worth much to society.

The lynching of the negro Brooks at Oklahoma City several nights ago clearly carries out this idea. Several young men, who were unable to control their primeval instincts to kill that man who crosses their way, are now facing a penitentiary sentence for the remainder of their lives. Some of the men have wives and children who must undergo the stigma of having a husband and a father in the penitentiary.

What was Brooks' sin? He had taken a job which the men believed belonged to one of them. They had worked at the jobs before, they had quit, they had talked among themselves and not to others, they had come to believe that any man who worked in the plants was a criminal, and should be killed. No man ought to permit himself to associate only with those in the same line of business. It narrows him, it makes his prejudicial, it embitters him when things go against him. Every man, regardless of his station in life, owes it to himself to belong to a lodge, a church, or a society where the bulk of the membership is made up of those in a different work from his own. Such associations are necessary to make one well balanced mentally.

Unrestrained tendencies must be fought and conquered. It is as necessary on the part of labor as of capital or any member of society.

Press reports say the Republican national committee still owes over \$700,000 on the Harding campaign. When the election came around the debt was more than twice this amount, but has been cut down to the present level. It is not stated how much was paid in during the campaign, but the Republicans seldom have any trouble in digging up a big fund for an election. Judging from the size of the debt, the G. O. P. expected more trouble in electing Harding than they really had, and gauged their expenditures accordingly, thus blowing in a lot more than was needed.

Opportunity is like the combination of a safe—only a few know how to work it.

The Forum of the Press

The Mossback Danger.

(Wichita Daily Times)
Westinghouse wireless operators estimate that several hundred thousand persons heard a sermon sent out by radiophone. The preacher was Rev. Dr. Charles Lee Reynolds, pastor of the Park Presbyterian church, Newark, N. J.
After preaching 20 minutes, Rev. Reynolds said to his invisible audience: "At this point in any service I would take up a collection. But I don't see how I can ask my radio congregation to give an offering. And I can't ask you to join in singing a hymn."

In scores of communities in Texas sermons delivered by Rev. George Truett of Dallas are heard by wireless. In a short time it is probable that wireless sending outfits will be as common as wireless receiving stations now. We have preachers right here in Wichita Falls who are not willing to be behind any in these novel things that help them reach more people and within less than sixty days we expect to hear of a wireless sending outfit being installed in at least one Wichita Falls church.

And maybe some day the way will be found for the wireless congregations to join in the singing of the hymns and reporting the collection by wireless.

Trains on Henry Ford's railroad, the D. T. & L., soon will be "dispatched" by wireless. No telegraph wires to blow down, during a blizzard, halting up the service and imperiling life.

Twice a month, Uncle Sam's public health service broadcasts a wireless telephone health lecture.

The amateur wireless operator regularly hears grand opera, instrumental concerts and college glee clubs.

Andreas Dippel, veteran opera conductor, arranges to take grand opera stars to every part of America by vaudeville circuit system. He'd better move fast, for at least seven out of ten Americans soon will be hearing the best opera singers in the world by wireless phone. Who'll pay them? New arrangements must be made.

A startling feature of the suddenly arrived wireless telephone is that the majority of its followers are boys in knee pants.

Go into a store selling wireless outfits and you'll find six boys to every adult among the customers.

The youngsters caught the idea in a flash and are "going to it."

Meaning, the grown-ups are snoring away, with no definite idea what this "wireless business" is all about.

Adult America will shortly be a mossback, if it doesn't waken. The youngsters are experimenting with wireless wizardry while the rest of us ride in stage coaches.

PROBE OF PROPAGANDA

(By the Associated Press)
WASHINGTON, Jan. 26.—Congressional investigation of charges that an "extensive campaign of propaganda" has been waged in both the United States and Mexico by "agents and representatives of certain oil interests" for the purpose of "discrediting the present government of Mexico and prevent its recognition by the United States" was called for today in a resolution introduced by Representative Connally, democrat, Texas.

An Army Marches On Its Stomach, Said Napoleon

The Great Corsican Knew That Success in Life Depends Upon Your Strength, Energy and Endurance.

By HARRISON VAUGHN

When Napoleon led his victorious armies through Europe, his worst enemies were not the nations defending themselves against his smashing onslaught; but he was confronted by the graver question of how to provide nourishing and strengthening food for his soldiers.

The Great Corsican realized long over a century ago, as has every commanding general since, that men's bodies must be perfectly nourished if they are to retain their natural strength, energy and vigor; in fact, that the very health of the human being is regulated almost entirely by the stomach. Underfeeding, insufficient nourishment, means loss of flesh, anaemia, lack of red blood and subsequent weakness of the entire system.

What such people need to enable nature to bring back their strength and vigor, restore their lost weight, and put them in fighting trim, with rich, red blood coursing through their veins is Tanlac, the powerful reconstructive tonic and body builder.

A man or woman suffering from sour stomach, bad breath, biliousness, indigestion, or gas on stomach, is unfitted either for physical or mental labor. Sufferers from these ailments find life a burden; they look on the world through blue glasses, the joy and rewards of the vigorous happy normally health person is not theirs. Their troubles embitter them against the world, destroy their ambitions and make their lives dull and unhappy.

How foolish to continue in this condition when on every hand

Prominent Doctor After Trying Out All Other Chill Tonics Says Mendenhall's Best

Dr. R. S. Pierce, proprietor city pharmacy, Marietta, Fla., writes: "A few years ago when I purchased this drug store I found six dozen bottles Mendenhall's Chill & Fever Tonic in stock and it was totally unknown to the trade. I noted on the circular the quinine strength and placed it in the hands of a number of my patients to try it out. They were so universally pleased with the preparation I decided to try it in my own family and my wife now will use no other for our children."

Sold by Gwin & Mays Drug Co.

INTERNAL PERIL DECLARED WORST U. S. IS FACING

AKRON, Ohio, Jan. 27.—If the government of the United States ever shall fail the calamity is far less likely to result from external attack from the danger of the internal elements which constitutes its foundation—liberty, law, order, justice—United States Senator Joseph P. Robinson, of Arkansas, asserted in an address today before the Ohio state bar association.

Talking on the question of application of sound doctrine in law making and law enforcement, Senator Robinson defined the impracticability of making thousands of laws, declared the Dyer anti-lynching bill was unconstitutional and would fail to curb lynching, asserting that it was of prime importance to enforce the prohibition amendment and maintained that the remedy cannot be found in laws compelling workmen to continue their labors.

"A policy widespread and universal," he said "is that legislation is the logical remedy for every wrong inflicted and for rights impaired. It is said that more than 16,000 statute laws are in force in the various cities of the United States."

MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp, and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folk, who are subject to rheumatism. (a)

HOUSE COMMITTEE TO FRAME SOLDIER BONUS

(By the Associated Press)
WASHINGTON, Jan. 27.—After brief hearings Tuesday, the house ways and means committee will undertake the framing of a soldier bonus bill at once for report to that body, where it probably will be the continual order of business until passed, according to a program of action agreed upon by its members.

FOR INDIGESTION

A NEW LINIMENT IS SUGGESTED AS CURE

The following was handed to the News by one of the citizens of Ada with the request that it be published. It is reproduced not because the News endorses the sentiments, but because it will probably prove of interest to many readers:

"One-half pint faith, half pint of virtue, half pint knowledge, half pint patience, half pint temperance, half pint Godliness, half pint charity and good resolutions, well shaken together, three times a day with prayer, will cure the devil's rheumatism, evil eye, blasphemy, gambling, lying, stealing, backbiting, deceit kill the nerves of prejudice and purify the blood. It will stop the moneyed preachers from preaching for the dollar and make them preach a clean life and work for the good of humanity and, if we can get the worst man there is to use this prescription, it will restore him back to manhood and respectability with God and man. Who take him love his own wife and children better and he will want to put them under the same treatment. Now, if we can get a remedy used in the home of this country, it will caust the ladies to wear full dresses, stop dancing and theatre-going, cleanse your heart from sin and preserve your soul blameless; it will stop men's wives from joy-riding with other men. Shake well before using and rub until it affects the heart. Keep this up 365 days in the year, and if it does not cure, you can bankrupt Heaven."

As between new and old potatoes, it behooves the purchaser to keep his own eyes open.

Sirius, the brightest star rises about nine o'clock on Thanksgiving evening.

Need A Good and Pleasant Tasting Malaria Tonic? Then Take

This perfectly palatable syrup is pleasant to take and will not upset the stomach, or make the head ring like ordinary Quinine.

Mento-Quinine is ideal for the Mother and her children.

Keep a bottle in the home.

PROMINENT MCALESTER CITIZEN GAINES FOURTEEN POUNDS

Mr. Charles L. Hefley, of 225 West
Adams street, tells of remark-
able improvement in
health since taking
Puratone.

"I have not only gained four-
teen pounds, but my health and ap-
pearance have improved so wonder-
fully that my own brother scarcely
recognized me when he met me a
few days ago in Oklahoma City,"
said Mr. Hefley. I told him, as
I have told several of my friends
here, that I owe it all to Pura-
tone."

stomach. Gas would form and
bloat me, and would come up into
my throat and almost cut off my
breath. I was weak, run down, had
no energy, lost weight, and was just
a shadow of my former self. I had
terrible headaches, was constipated,
my nerves were in such an awful
state that I could scarcely ever get
any sleep. At times I had sudden
attacks of dizziness. There was such
a sharp pain in my chest and should-
ers that I could scarcely drive my
car to Hartsboro.

"I was told about Puratone, and
decided to try it. Since taking only
two bottles, I feel like a new man.
I eat heartily, digest all I eat, have
no more headaches, my bowels are
regular, my nerves are steady, I
haven't a pain anywhere, and my
weight has increased fourteen
pounds. I don't know what I would
have done without Puratone, and it
will always have my sincere gra-
titude for what it has done for me."

Puratone is sold in Ada by Gwin
& Mays Drug Store; in Allen, Gwin
& Saffarans and Steedman, John
Edwards and all leading druggists
everywhere.

Obituary

Mrs. G. S. Hampton, age 54, died
Thursday afternoon at 2 o'clock at
the family home, 718 West Sixth
street. She has lived in Ada since
her marriage about three years ago.
Funeral services were to be held this
afternoon at 2 o'clock at the Chris-
well-Myers undertaking parlors.

PRESBYTERIANS SHOW INCREASE FOR LAST YEAR

(By the Associated Press)
DES MOINES, Ia., Jan. 26.—An
increase of more than 85,000 com-
municants of the Presbyterian
church of the United States of
America during 1921 was announced
here by Dr. Lewis Seymour Mudge,
of Philadelphia, Penn., stated clerk
of the church. Dr. Mudge was in
Des Moines making arrangements
for the annual general assembly of
the denomination to be held here
beginning May 18 and continuing for
ten days.

Dr. Mudge announced that the
number of communicants of the
church now exceeds 1,700,000. This,
he announced, is a gain of more
than 85,000 over last year. The
church also has more than 1,400,000
Sunday school members.

Contributions during last year, Dr.
Mudge said, exceeded \$47,000,000
of which more than \$4,200,000 was
spent for foreign missions, \$3,701,-
000 for Home Missions and more
than \$1,000,000 for education.

The Presbyterian Church has
9,979 ministers of the Gospel. The
General Assembly is the na-
tional legislative body of the church
composed of both ministers and lay-
men, administering affairs of the
denomination through 46 synods,
corresponding approximately to
states, and 702 presbyteries, cor-
responding to congressional districts.

In an official statement concern-
ing the church, by Dr. Mudge in
the recently issued Presbyterian
Handbook, it is recorded: "The
Presbyterian Church stands, as it
has stood during its entire history,
for the unconditional sovereignty of
God, for the Bible as the only in-
fallible rule of faith and life, for
simplicity of worship, representative
government, a high standard of
Christian living, liberty of conse-
science, popular education, missionary
activity, and true Christian catho-
licity."

RED PEPPER FOR RHEUMATIC PAIN

Red Pepper Rub takes the "ouch"
from sore, stiff, aching joints. It can
not hurt you, and it certainly stops
that old rheumatism torture at once.
When you are suffering so you can
hardly get around, just try Red Pe-
pper Rub and you will have the quick-
est relief known. Nothing has such
concentrated, penetrating heat as red
pepper. Just as soon as you apply
Red Pepper Rub you will feel the
tingling heat. In three minutes it
warms the sore spot through and
through. Pain and soreness are
gone.

Ask any good druggist for a jar
of Rowles Red Pepper Rub. Be
sure to get the genuine, with the
name Rowles on each package. (a)

You never
tasted Corn Flakes so
joyously flavored, so
crispy-crunchy as Kellogg's

That's why big and little folks who know
the difference insist upon KELLOGG'S!
The thing to do is to make comparison—
Kellogg's against any other kind of corn
flakes you ever ate! If it's all-the-time
crispness or delicious, appetizing flavor you
want—well, just you eat Kellogg's! And,
what a delight to know they're never leath-
ery or tough!

You'll get so cheerful about Kellogg's
that the day's best hours will be when it's
time to sit down with the family in front
of generous bowls all filled most to bursting
with those big, sunny-brown Corn Flakes!
Never was a better time than tomorrow
morning to prove that KELLOGG'S Corn
Flakes are about the "gladdest of all good
things to eat."

Insist upon KELLOGG'S—the kind in
the RED and GREEN package—if you
want to know how wonderfully good corn
flakes can be!

Remember — KELLOGG'S
Corn Flakes are made by the
folks who gave you the JUN-
GLELAND Moving Pictures.
Coupon inside every package
of KELLOGG'S Corn Flakes
explains how you can obtain
another copy of JUNGLE-
LAND.

Record Snowfalls

Cover Country Is Washington Report

WASHINGTON, Jan. 27.—Snowfall to a depth which marked new records covering the period of the past 20 years, were received in many southern states, as an aftermath of the storm of the early part of the week.

The weather bureau predicts snow fall in 16 states in the east and in the south down to the northern Alabama-Mississippi line.

Virginia reports the heaviest fall in many years. At Danville, 12 inches were received, a 26 year record being broken.

In Georgia the visit consisted mostly of sleet with damages confined largely to interruption of communication.

Notice of Meeting.

Notice is hereby given that the Board of Commissioners of the City of Ada, Oklahoma, will meet on the 9th day of February, 1922, at 2:00 p. m. in the City Hall of the City of Ada, Oklahoma, for the purpose of reviewing the report of the Board of Appraisers making appraisal and apportionment of costs to the various lots and tracts of land benefited by the paving, grading, curbing, draining and otherwise improving of Street Improvement District No. 9, same being:

North Mississippi Avenue from the North line of East Main Street to the south right-of-way line of the St. Louis and San Francisco Railroad, including all street intersections and alley crossings on the above described avenue in the City of Ada, Pontotoc County, Oklahoma.

The report of the Board of Appraisers is hereto attached and set out below, with Exhibit "A", and published herewith. At said meeting the Board of Commissioners will hear and adjust any complaints and review any appraisal and apportionment made by the Board of Appraisers, as provided by law, and will review, correct, raise or lower the same, and the Board of Commissioners will adjourn from day to day and from time to time until their labors are completed. At said meeting all persons interested may appear and be heard.

Signed this 24th day of January, 1922.

CITY OF ADA, OKLAHOMA.

By Gary Kitchens, Mayor and Commissioner of Public Justice and Safety.

Attest: Minnie G. Hope, City Clerk, and Commissioner of Accounting and Finance.

Report of Appraisers.

Ada, Oklahoma, January 24, 1922.

To the Honorable Board of Commissioners, Ada, Oklahoma.

We, the undersigned Board of Appraisers appointed by resolution of your Honorable Body to appraise and apportion to the several lots and tracts of land chargeable with the paving and otherwise improving of Street Improvement District No. 9, same being North Mississippi Avenue from the north line of East Main Street to the south right-of-way line of the St. Louis and San Francisco Railroad, including all street intersections and alley crossings on the above described avenue in the City of Ada, Pontotoc County, Oklahoma, in the aggregate

amount of Forty-Two Thousand Eight Hundred Forty-four, and 07-100 Dollars (\$42,844.07), do hereby certify that we met in the City Hall in said City on the 24th day of January, 1922, and organized as a Board of Appraisers, and selected E. V. Estill chairman and L. T. Walters as secretary thereof; that we, at said time, severally took and subscribed an oath to make true and impartial appraisal and apportionment to the several lots and tracts of land designated in the resolution by which we were appointed, of the benefits resulting thereto, as aforesaid; that within five (5) days after being notified of our appointment, we proceeded to appraise and apportion to said several lots and tracts of land the benefits resulting therefrom on account of the making of said improvements; that in making said appraisal and apportionment we apportioned to each lot and tract its due portion of the charge, according to the amount and cost of work performed upon said Street Improvement District; which respective amounts so appraised, apportioned and adopted we find just, equitable and accurate, and that the several respective lots and tracts are benefited to the extent of the respective amounts so apportioned; that we appraised and apportioned to several lots and tracts of land therein, the respective amounts set opposite the description of said lots and tracts of land contained in the statement attached hereto, marked Exhibit "A" and made a part hereof, which respective amounts we find equitable and just and according to the benefits accruing to said several lots and tracts of land.

Respectfully submitted, E. V. ESTILL, L. T. WALTERS, R. E. CARPENTER, Appraisers.

Filed this 24th day of January, 1922.

CITY OF ADA, OKLAHOMA.

By Gary Kitchens, Mayor and Commissioner of Public Justice and Safety.

Attest: Minnie G. Hope, City Clerk and Commissioner of Accounting and Finance.

Common Sense

About Eczema

and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it. When the cause of skin troubles and eruptions is in the blood, it's not common sense to simply treat the skin. A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser—it drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your lips turn naturally rosy. Your eyes sparkle, your complexion clears, it becomes beautiful. Your face looks like that of a prosperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world so admires. S. S. S. is also a powerful body-builder, because it builds new and more blood cells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have this happen to you. S. S. S. is sold at all drug stores, in two sizes, the larger size is the more economical.

Recommending E. W. Walker, Springfield, Mo., Jan. 25, 1922.

This letter is to certify that E. W. Walker of Ada, Okla., was in our employ for a fifteen years, ending in 1920, as foreman and in charge of various pieces of our work in building construction.

He was efficient, industrious, and honest. His services were very satisfactory and we are glad to recommend him.

Respectfully, Jarrett Construction Co. J. H. Garrett, President.

Got Robber First Night.

DES MOINES, Jan. 27.—After his store had been robbed 22 times in the last two years, E. J. Dunkle, decided to sleep there last night. Early today he had shot and instantly killed a robber.

Local Pastor Speaks At Baptist Program At Francis Friday

Rev. C. C. Morris, pastor of the First Baptist church, delivered a sermon last night at Francis on the program of the fifth Sunday meeting of the Pontotoc Baptist association, in session from January 26 to 29. Rev. J. H. Page, pastor of the Oak Avenue Baptist church here, was to preach there at 10 o'clock this morning and Rev. R. E. L. Ford, field missionary, an hour later. Rev. Morris is scheduled for a sermon again this afternoon at 3:45 on "Evangelism." Judge W. C. Duncan will speak tonight at 7:15 on the "Laymen's Movement."

Additional speakers will appear on the program this afternoon, Saturday, and Sunday. The meeting closes with a sermon Sunday night by Rev. J. B. Bounds. Several members of the local Baptist church were in attendance at today's sessions.

Non-Partisan Head Facing Charges of Embezzling Funds

FARGO, N. D., Jan. 27.—A warrant has been issued here for the arrest of A. C. Townley, president of the non-partisan league, charging him with implication in the alleged embezzlement of \$3,000 from the Scandinavian Bank of Fargo.

The warrant was issued in the Cass county district court, it was learned today and will be served on Townley when he is released next week, from the Jackson (Minn.) county jail where he is serving a 90 day sentence for conviction on a charge of violating the espionage law.

It is charged in the warrant that Townley, on January 20, 1919, at Fargo, "did feloniously advise and encourage" J. J. Hastings, former president of the bank, "to commit the crime of embezzlement," that Hastings appropriated the \$3,000 to his own use, to the use of the defendant, A. C. Townley, and to the use of unknown parties.

GAME RETURNS APPLIED ON O. U. STADIUM

NORMAN, Jan. 26.—(Special)—For the first time in the history of the interfraternity sport schedules at the University of Oklahoma a charge will be made for the fraternity basketball games but the entire proceeds will be turned over to Ben G. Owen, director of Sooner athletics, to be used as expense money for the Sooner stadium campaign to be launched this spring, according to action of the Interfraternity council Tuesday night.

5-Inch Snow at Pittsburg

PITTSBURG, Kan., Jan. 26.—Five inches of snow had fallen here this morning and the precipitation was continuing.

MANY OF COUNTY TEACHERS TO GO TO O. E. A. MEET

Donsens of city and country school teachers will close their school rooms and attend a meeting of the Oklahoma Educational Association at Oklahoma City Feb. 9-11, according to announcements recently from J. E. Hickman, city superintendent, and A. Floyd, county superintendent.

Mr. Floyd received yesterday a letter from E. E. Oberholtzer, director of the National Educational Association for Oklahoma urging a campaign to enlist members in that body which is affiliated with the state organization.

Counties over Oklahoma have es-

tablished 70 percent as a minimum mark in membership in the O. E. A. according to a late report from M. A. Nash, secretary. The biggest attraction for the state convention early next month is "The Messiah," to be rendered by Bethany college chorus of several hundred voices. Membership certificates in the Oklahoma Educational Association will admit teachers to this.

Pontotoc county teachers may make room reservations in Oklahoma City for the convention by writing Mrs. Barnett, local accommodation committee chairman, 400 North Walnut, Oklahoma City. He will have a booth in the Hickins hotel to provide rooms for teachers who wish to arrange accommodations after they arrive.

Health hint: When trying to beat a train to a crossing—succeed.

How Soldier Dispersed Attacks

"For two years my stomach trouble was very bad, my doctor had to inject morphine on several occasions when I was stricken with these attacks. Since taking 4 bottles of Mayr's Wonderful Remedy I have been entirely well and am serving in the artillery, having been pronounced in perfect health by government physicians." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Kiddies' Colds Can Be Eased Quickly

Dr. King's New Discovery will do that very thing, easily and quickly. Don't say, "Poor little kiddie, I wish I knew what to do for you!" When the cough first comes, give a little Dr. King's New Discovery as directed, and it will soon be eased.

It's a good family cough and cold remedy, too. Loosens up the phlegm, clears up the cough, relieves the congestion. No harmful drugs. For fifty years a standard remedy for colds, coughs, grippe. At your druggists, 60c a bottle.

Dr. King's New Discovery For Colds and Coughs

Constipated? Here's Relief! Cleanse the system, with Dr. King's Pills. They prompt free bile flow, stir up the lazy liver and get at the root of the trouble. All druggists, 25c.

PROMPT! WON'T GRIEVE
Dr. King's Pills

Farmers' Column

By Byron Norrell

Many farmers are careful to harvest and store their seed corn at the proper time and in the proper manner, but the majority of us depend for seed upon the occasional good ears found during the husking season or we select our seed corn from the crib in the spring.

This results in poor seed corn and poor seed corn means a poor stand, missing hills, weak stalks, producing little or nothing. It means less than 30 bushels per acre instead of 60. It means that we produce an average of one small ear to each hill instead of two or three. It means wasted land and wasted labor.

If harvesting seed corn was a portion of our every day work, like feeding our live stock, it would be done on time. But as it comes only once a year it is human for us to put it off or neglect it altogether.

On every farm where corn is grown, both in the north and in the south, a certain date, depending upon the locality, should be set aside as seed corn day, and on that day the seed corn for the next year's planting should be harvested and stored.

In many cases the work could not be completed in one day, but a good beginning could be made, and it will require less time than is generally supposed. Six bushels of seed will plant about 43 acres of corn, if there is no waste and no replanting is necessary. But it is best to save 15 or 20 bushels for each 40 acres. This will provide for all ordinary emergencies and will enable us to plant only the best and strongest ears.

One of the best methods for gathering seed corn is to go into the best field with bags or baskets and select well matured ears from the most vigorous stalks.

We should not fail to consider the stalk in selecting the seed, for it requires large, thrifty stalks to produce good, big ears. It is not a good plan to take the ear from a stalk that grew in a hill by itself, or from one in a hill with a barren or weak stalk. Many of the kernels on such an ear are likely to be pollenized by the barren or weak stalk.

Choose ears of a medium height. If we select the highest ears, our corn will gradually become late. If we select the lowest ears we will soon have corn that is too early and with shallow kernels and wide furrows between the rows.

Pick ears that droop over so that their tips are turned downward. Such ears shed water better when it rains and are usually drier than ears standing up right. The shank should be short, as ears with long shanks are harder to husk and are more often damaged.

See that the husks are long enough to cover the tip of the ear, but do not extend far beyond. If the tip is left bare, it is likely to be damaged by insects and disease, and if the husks extend far beyond the point of the ear they are usually tightly closed so that the ear cannot dry out well and is difficult to husk.

There should be a medium growth of broad, thrifty leaves distributed evenly over the stalk, and the plant should be free from all forms of disease, such as smut, rust, etc., and should also be free from suckers.

Storing Seed Corn.
As soon as the corn is picked, it should be husked and placed so that the air can circulate freely around every ear. Never put it in a pile on the floor.

When picked, corn contains a lot of moisture and if placed in a pile especially in the south, will heat, or mold or both in a very short time. It should be so arranged that the ears do not touch each other.

A rack can be made or purchased which will provide for the proper conditions for storing seed corn and one of the most satisfactory methods is to tie it up with binder twine.

The strings containing 12 or 15 ears each, can be suspended from horizontal wires or from nails driven in rafters. By this method enough corn to plant eight acres can be stored in a space three feet long and 10 inches wide.

This method of storing gives better protection from the mice than when the corn is spread on the floor or corded in piles, and it gives better circulation of air, which allows the corn to dry out quickly and thoroughly thus protecting it from molding or sprouting.

One source of injury to seed corn is freezing while it contains moisture, but this danger is not so great in the south as in the north.

In the northern states it is only necessary to store seed corn in the manner mentioned, in some place where the atmosphere is dry, where there is free circulation of air and where the corn will not be exposed to overheating or freezing.

These general conditions apply equally to the storing of seed corn in the south, but there is also another danger against which safeguards must be provided. This is the damage occasioned by the weevils and grain moth.

This often makes it necessary to fumigate the seed with bisulphid of carbon, using one-half pint of the insecticide to 10 bushels of grain or less.

When the fumigation is made, the corn must be placed in a specially prepared box or other receptacle, made as air tight as is possible. The bisulphid should be placed in shallow dishes or pans on top of the seed and allowed to evaporate for from 24 to 48 hours. The corn should not be fumigated until dry, as it is likely to heat. After fumigating, the ears must be thoroughly aired. The bisulphid is very inflammable; even explosive, when mixed with air under certain conditions and much be handled with great caution. No fire, lighted lantern, lamp, or other open flame should be present when the fumigating box is opened.

Anyone not familiar with bisulphid of carbon should first obtain from the Secretary of Agriculture, at Washington, D. C., copies of Farmers' bulletins Nos. 45 and 145 and read them carefully.

Another very effective method of protecting seed corn from the weevil and the moth, is to suspend it on strings from wires stretched across the top of a box-like frame, two or more sides of which are made of wire screen. The screen will permit free circulation of air and keep out both moths and mice. Or the frames may be entirely or partly covered with muslin instead of screen, if preferred.

P. G. HOLDEN,
Field Director I. H. C.

LYNCHING, IF UNBRIDLED, TO BREAK DOWN LAWS

WASHINGTON, Jan. 25.—Declaring it "was high time" for the federal government to give attention to checking mob violence, Representative Mondell of Wyoming, republican leader, declared today during a debate in the house on the Dyer anti-lynching bill, that if lynching was permitted to go unchecked, it would "break down and destroy law and order and civilization."

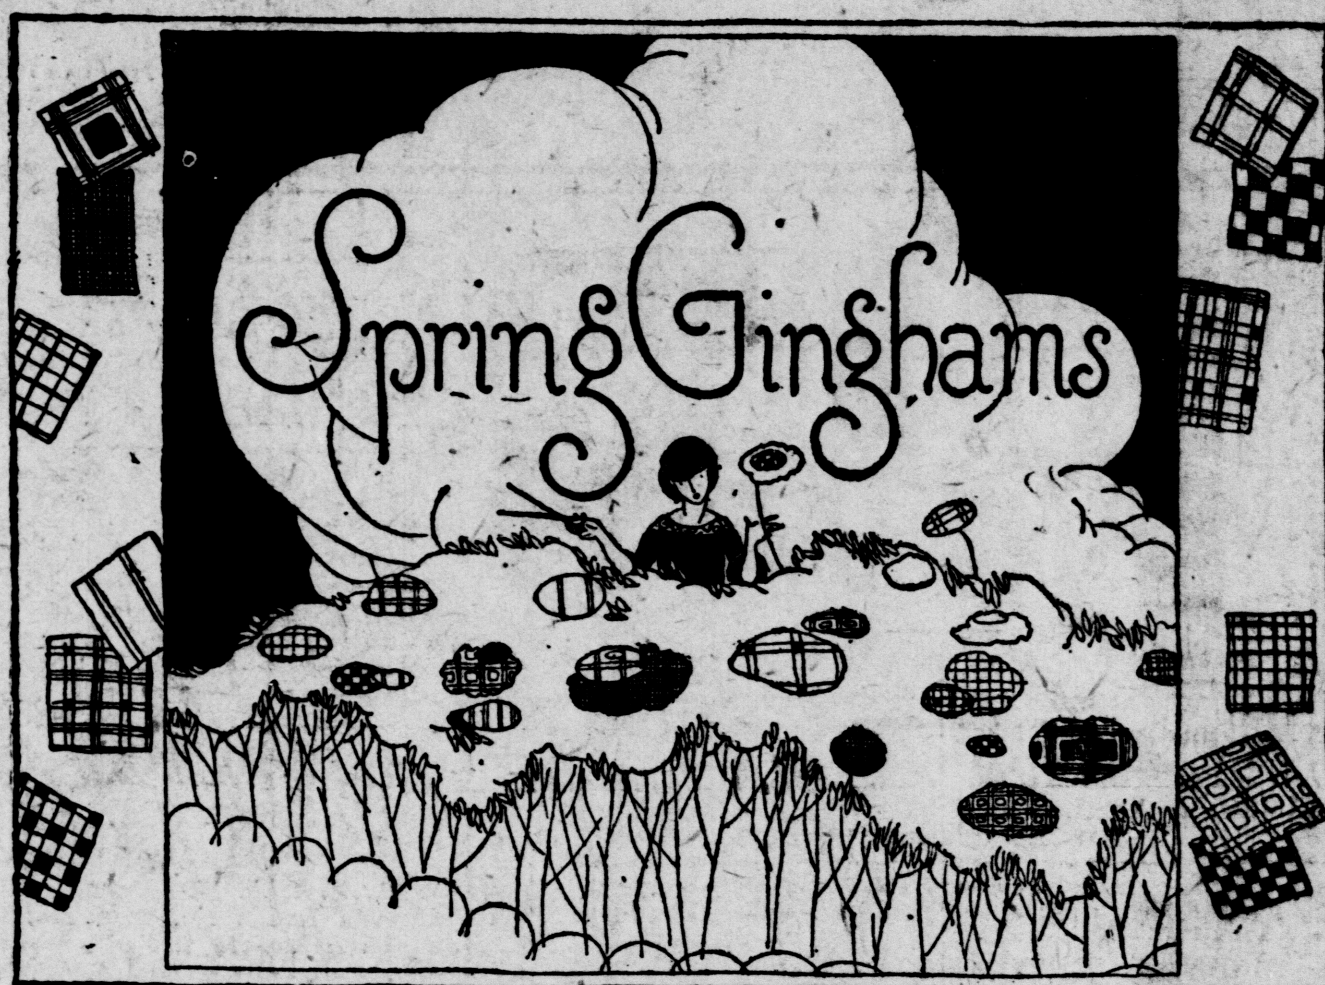

Circus animals are quick to detect lost nerve on the part of their trainer.

In The Oil Fields

HOLDENVILLE, Jan. 27.—(Special)—At a meeting of the Holdenville chamber of commerce a strong resolution was passed, thanking the oil companies and the investors who have bought leases and are buying leases in this part of the state. The chamber passed a resolution promising aid and assistance to all who have any title troubles over there, and to do all in their power for those who undertake to make up blocks or do anything in the development line.

The Arkansas Natural Gas company and Joseph Mosierist have made a location for a test well in the northwest corner of the southeast quarter of the northwest quarter of 34-7n-10e, Albert Brown allotment. Smith and associates are hauling tools and casing out to their location in the southeast corner of the west half of the northwest quarter of 23-7n-7e. Mr. Smith drilled the old Penn-West well in 4-7-3 and before it was finished he said he was too far east, and that he should have gotten over in 23-7-7 but at that time a block could not be had there.

The New Ginghams for Spring

Madame Fashion must have taken her Gingham to Palm Beach to decide which colors she wanted for the Spring gingham promenade. For they are all of soft blue, rose, green and orchid colorings, as softly harmonious as the afterglow of a Palm Beach sunset. And, small checks are fashionable—and crisply chic, too.

Both Domestic and Imported Gingham

THINGS OF INTEREST TO SCHOOLS

VOL. 1.

JANUARY 27, 1922

NUMBER SEVEN

Mr. Tom Fullerton has taken charge of Troop No. 2 at the First Baptist church. He expects to stage some interesting stunts for the boys and to assist them win scout badges.

Troop No. 3 and the Glenwood troop met together at Glenwood school building Wednesday evening. Basketball, boxing and scout work were features. Scoutmaster William Everett is lining up the boys at Glenwood in good shape. Valton Turner joined Glenwood troop this week.

When it comes to building the bridge and the log cabin and fitting up a wireless station for the coming pageant in the spring, Troop No. 1 will be on the job.

Scouts of the Willard and Hays school met together last night. Corner ball and boxing were engaged in.

Billie Patterson joined the Washington school troop last week. This is a live troop.

The Francis scouts defeated a basketball team made up of Ada scouts at Francis last Saturday. The following activities took place under the Pontotoc county council.

during January, provided basketball games for about 200 Ada boys, played three games with Francis basketball teams, arranged for a Fathers' and Sons' luncheon at Francis which was attended by 50, took the girls and boys' glee clubs of Ada High school to Latta school, Roff, Center, and Vanoss through the co-operation of Miss Inez Donaidson and Mr. Oscar Parker, and Ada people kindly furnished cars so that people could learn more about scouting progress; spoke to 40 boys at Stonewall, 55 at Roff, 33 at Francis.

The boys of Washington school troop were entertained in the home of Mr. and Mrs. H. E. Hamilton. Troop No. 2 boys were entertained by Mr. and Mrs. Pitts at the First Baptist church. Boys from the Methodist church troop, Willard and Irving school troops were given parties at the home of the scout executive. In addition to this about 100 Wolf Cubs played games under the supervision of the scout council.

There will be a big awarding of badges soon. February 2 is Scout Anniversary. The merit badge examining committee will meet next Tuesday at scout headquarters.
